Technologies are used in the system

04 Conclusion

- a. Limitations
- b. Future plans

01. INTRODUCTION

a. Context

b. Problem

c. Solution

a. Context

b. Problem

For customer:

-It's difficult to choose a trustworthy platform, especially for high-end fashion items

For product owner:

-People who already own high-end fashion but no longer like it have a cramped wardrobe, so they think of a way to increase their income by renting these outfits.

c. Solution

Rent and sell high-end
products online
